SAISUA held the “International Communication Tour” for UoA

international students. Through enjoying skiing and snowboarding, we wanted the students to discover the good parts of the Aizu region.

Also, we wanted them to know more about each other by sharing information on their own countries and how they felt after they came to Japan.

Even the students who had never skied before enjoyed this valuable experience. After lunch, each student gave a three-minute speech about their home country in order to understand each other's background and deepen their friendship.
