

Scenario

Hi, everyone on campus.

This is [name]. I'm a [first / second / third / fourth-year undergraduate / master's / doctoral student from [origin]].

- While COVID-19 cases are declining in Fukushima, new cases, including infection clusters, are still being reported on a daily basis. We need to stay vigilant to prevent the spread of the pandemic.
 - Please continue to avoid closed spaces, crowded places, and close contact settings, wear a mask, and wash and sanitize your hands.
 - Please avoid scenarios that pose a high risk of infection. This includes attending events where food and drink are served, eating and drinking in large groups or for extended periods, and unmasked conversations.
 - Please also take steps at home to avoid infecting the people you live with.
 - Although the pandemic has been a major burden on our studies and our daily lives, we can prevent it from spreading any further by following these steps.
