

# Let's study Japanese :D

Q: Why study Japanese?

A: You are in Japan! People here speak Japanese. Life is easier and more interesting if you can speak Japanese.

A: If you want to work in Japan, there will be more options if you understand Japanese :)

(I like to watch drama, so I hope that one day I don't need any subtitles to fully understand the contents :D)

Q: How to study Japanese?

A: Follow your interests, if you like watching drama, then try watching Japanese drama. If you like listening to Japanese songs, then try to understand the lyrics.

A: Attend classes. You can learn the grammar, which helps you to understand the conversations/articles easier.

A: Making Japanese friends and try to talk to them in Japanese also works :D

Hi, I'm Agnes  
An undergrad who's  
from Hong Kong since 2018.  
I've started learning Japanese  
after I came to Aizu :)

Q: Why challenge JLPT?

A: It can be a way to check your progress in learning Japanese.

Q: How to pass JLPT?

A: Depends on how you like to prepare your tests/exams. I prefer doing past papers. It helps me to remember Japanese vocabs by forcing me to recall them.

(Actually that's a dog.)
