

Name: Fanqing Meng

Country: China

Lab: Biomedical Information
Engineering Laboratory

JLPT: N1

Why study Japanese?

- I am from Shaanxi Province of China. I have been in contact with various Japanese cultures since I was a child. Among them, Japanese anime has the greatest impact on me, such as: 「渦巻きナルト」、「名探偵コナン」. Even now, sometimes I will continue to watch various anime.

- After I entered university, I learned a variety of knowledge related to Japanese. I gradually learned that Japan is a peaceful, friendly and beautiful country with a colorful life and a brilliant culture. Therefore, I decided come to Japan to experience Japanese life and culture.

How to study Japanese

- I usually learn Japanese in my spare time. Meanwhile, my experience of working in a convenience store also helps me to learn Japanese.
- On the other hand, I go to the Kusakari teacher's Japanese class every week, and Kusakari teacher gives me a lot of help in grammar, listening, reading and many other aspects. It is because of the teacher's help that my Japanese will improve.

About future learning

- With regard to future study, I will continue to learn Japanese. Meanwhile, I hope that more students can join us.
